

Doug Adkins - "Lonesome"

Going For Adds: 31 Aug 2016

CD Review: From Kai Ulatowski - Editor Country Mag - Germany

"Great songs, great musicians, a seasoned artist, a clear and perfect mix and heart, soul and enthusiasm. All that unites the new album by Doug Adkins. The cowboy from the "Big Sky State" Montana, who thrilled the European country music fans for many years, has delivered with his latest album "Lonesome." More than just my contender for album of the year in my eyes (and ears)!"

A Concept CD In Country??

Taking you through the whole experience from being the first time you are attracted to a special someone and you just can't wait to sneak away with her in your pickup truck in "Little Thing Called Love" (Track #1)," to where you're beginning to see that "Forever by Your Side" (Track #2) is the best way to go. The story then winds its way through (track #5) "Good Morning Beautiful" all the way to the tear jerker song (#9) "Habits and Hearts" and finishes with (Track #12) "Houston" where he believes that if NASA would help find her, he's certain this time he could keep her!

A Songwriting Masterpiece!

Montana Recording Artist Doug Adkins

"When I first started writing and playing country music, I like most artists believed I'd have my success in the United States and be one of the big stars. 20 years later I have 8 self written CDs and a very nice career in every place except the United States, thanks in large part to the song "Whiskey Salesman," which sat for 4 weeks on top all the European Country Charts in countries like the U.K., Germany, Switzerland, France, Denmark, Norway, Sweden, even Lithuania and Poland. For some reason, the country music gods decided it needed to go that way."

"If I had to do it all over, I wouldn't change a thing! I've been able to write and record my CDs the way I like them to sound. No big labels, no big agents, just me, my guitar and my songs. I've seen the world a few times over and have experiences that very few country artists ever get in life. I've never been rich with money, but I've played a lot of country music for people in parts of the world that most would find hard to believe! I've learned that country music is the music that connects us all, it's the common thread that connects the rancher in Switzerland with the farmer in Poland to the bull rider in Montana! We can all sing Willie Nelson and Kenny Rogers songs and we all loved Johnny Cash and Merle Haggard.

I'm thankful in advance if you take the time to listen. You'll notice the length of the songs are longer than most normal CDs. I've always believed in the story, and not be tied to a formula."

"This CD has a little of everything. Good 2 Steps, a Cha Cha, a Waltz and more. But most important is that it's country! If you asked me what my favorite song on the CD is, I'd have to say #6 Without You To Hold. It's just a very good country story. And of course it's hard to beat #9 Habits & Hearts, a nice traditional waltz about cheatin', lovin' and leavin'."
